GENERAL INFORMATION:

APY means annual percentage yield. Unless otherwise noted, (a) accounts have variable rates, meaning the rate can change at any time at the discretion of the Tech CU Board of Directors after the account is opened; and (b) rates are accurate as of the most recent dividend declaration date and subject to change. Certificate rates are accurate as of the effective date of this disclosure and are subject to change at any time. Call (408) 451-9111 or (800) 553-0880 for current rates. Fees may reduce earnings on all account types that earn dividends. When a Certificate is opened, the rate is fixed for the term of the Certificate. Early withdrawal penalties apply to Certificates. Early IRA withdrawals may be subject to tax penalty. Ask a Tech CU representative for information about federal insurance on accounts with balances in excess of \$250,000.00.

Technology Credit Union accounts are federally insured to at least \$250,000.00 by the National Credit Union Administration, a U.S. Government agency.

**Annual Percentage Yield is accurate as of 2/1/2023 and may change at any time. APY is available to Tech CU members who deposit and maintain a minimum of \$1000 of "new to Tech CU" money into a new Certificate account, meaning the total deposit must come from a source external to Tech CU. No maximum deposit applies. Penalties will be imposed for early withdrawals. See Tech CU's Truth in Savings Account Disclosure for more details.

For Certificates with terms of six months or longer, you may elect to have dividends post to a Tech CU Savings or Checking Account monthly instead of having the dividends post to the Certificate quarterly (in the case of Certificates with terms of one year or longer) or at maturity (in the case of Certificates with terms of less than one year). If dividends post to a Savings or Checking Account instead of the Certificate, they will not compound.
